Education

National Taiwan University (NTU) Taipei, Taiwan
B.S. in Computer Science and Information Engineering (CSIE) *Aug. 2022 - Jul. 2026 (Expected)*

Cumulative GPA: 4.24/4.30 | **Cumulative Class Rank**: 8/196 (as of 2022–2025)
Admitted to: M.S. Program in Computer Science and Information Engineering, NTU (Fall 2026)
Relevant Courses: Algorithm Design and Analysis (A+), Quantum Algorithms (A+), Cryptography and Network Security (A+), Post-quantum Cryptography (A-), Programming Language Theories and Type Systems (A+), Compiler Design (A+), Intuitionistic Logic (A+), Formal Methods (A), Formal Languages and Automata Theory (A+), Intro to Abstract Algebra I (A-), Operating Systems (A+), Virtual Machines (A), Computer Networks (A+)

Research Experience

Institute of Information Science (IIS), Academia Sinica Taipei, Taiwan
Research Intern / Project Assistant, Formal Methods Lab, advised by Prof. ***Bow-Yaw Wang*** *Jul. 2025 - Present*

- Developing abstract interpretation techniques for verification of floating-point cryptographic programs.

Network Security Lab (NSLab), NTU CSIE Taipei, Taiwan
Undergerduate Researcher @ Fuzbolic Group, advised by Prof. ***Hsu-Chun Hsiao*** *Sep. 2024 - Present*

- Investigated integration of directed fuzzers with recurring vulnerability detection tools.
- Currently exploring formal methods, including static analysis and cryptographic protocol verification.

Technical Experience

Network Administration and System Administration Team (NASA), NTU CSIE Taipei, Taiwan
Netowrk Administrator *Sep. 2023 - Jun. 2025*

- Maintained switch infrastructure serving 600+ faculty members and students.
- Built automated monitoring and backup workflows for newly deployed switches.

Teaching Experience

Introduction to Computational Logic Taipei, Taiwan
Teaching Assistant of the course instructed by Prof. ***Bow-Yaw Wang*** *in NTU* *Fall 2025*

Network Administration and System Administration Taipei, Taiwan
Teaching Assistant of the course instructed by Prof. ***Hsin-Mu (Michael) Tsai*** *in NTU* *Spring 2025*

Selected Projects

An Evaluation on Possibilities of RCE and Defense Mechanism in Electron-Based Applications
Jhih-Jhong Lin*, Gang-Yu Fan, Tsan-Huan Hsu, Yi-Ting Lo*
project report, Course: Cryptography and Network Security, Instructor: Prof. Hsu-Chun Hsiao

A Survey of Virtualization-Based Greybox Fuzzers
***Jhih-Jhong Lin**, Hsin-Tsen Yang*
project report, Course: Virtual Machines, Instructor: Prof. Shih-Wei Li

Integrating CPAchecker's Symbolic Execution with Likely-Invariant Generator for Grey-Box Programs
Jhih-Jhong Lin
code (in Java), project report, Course: Formal Methods, Instructor: Prof. Nian-Ze Lee

A Simple Terminal-Based, P2P/Centralized Online Chatroom Implementation
***Jhih-Jhong Lin**, Wen-Chun Kao*
code (in C++), Course: Computer Networks, Instructor: Prof. Cheng-Fu Chou

Awards

Dean's List, NTU, Fall 2023 *Mar. 2024*

Dean's List, NTU, Fall 2022 *Mar. 2023*

Skills and Interests

Languages: Mandarin (native); English (advanced reading & writing, intermediate speaking; TOEFL iBT 103/120)
Programming: C, Python, Bash; working knowledge of C++, Java, Haskell, and OCaml
Software: Linux, Git, LaTeX, Docker, CPAchecker, CryptoLine, Compiler (flex, yacc), Fuzzing (AFL++)
Research Interests: Formal verification, program analysis, cryptography
Games: Arcaea
